

### Space Day Celebration

Dear Parents,

Creative British School are celebrating Space Day on 27th of September 2022. Students' will participate in different events and activities on this day throughout their lessons and breaktime. Please encourage your child/children to participate in all activities and join in the celebrations.

#### **Activities for Primary section:**

##### **For Grades 1 to 5:**

- Students will dress up in space costumes (it should be handmade). We will have the best costume award for each class.
- Students will complete space activities set by the class teachers.
- Grades 4 and 5 will make rocket models by recycling material during class.

#### **Activities for Secondary:**

- Students will present "News from Space" (Students will present different research about space) one from each class.
- Students will design their own planet and present these to their peers.
- Make a space related model in small groups. The best model will receive a small prize.

Regards,

Assistant Principal,

Mr. Christopher Watson
